**Attachments:** Talking Points for Hill Briefing\_121613 (2).doc

Dennis and Dan, in the run-up to the decision to propose disapproval in December (20<sup>th</sup>). NOAA and EPA did a Congressional briefing in DC and invited the Oregon delegation. Can't recall now who all was there, but I will check in with NOAA. I'm attaching the talking points and the messages that were used for that briefing.

We can discuss whether need to make any adjustments to those talking points. We need to be mindful to keep NOAA in the loop on any outreach to Congressionals that we do from the Region.

Dan and Christine:

In my call this week with Dick Pederson he mentioned that the Oregon Congressional delegation has expressed interest in the Oregon CZARA determination we are engaged in with NOAA. As you know, Dick mentioned to me a month or so ago that Oregon felt we were singling them out and that they would be talking to their delegation. I expect we may hear back from the Oregon delegation on this so we might want to have a proactive strategy to get our story out to them. Lets discuss.
